R.M. SMYTHE

TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased.

2) All bids are per lot as numbered in this catalogue.

3) Bids less than 50% of the estimate **will not be accepted.**

4) We reserve the right to withdraw any lot prior to sale.

5) All successful bidders shall be billed for postage, handling and insurance.

6) **We cannot be responsible for the loss of any merchandise shipped outside the United States.**

7) **All framed items are shipped at the purchaser's risk.**

8) SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**

9) A SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.

10) United States coins and currency will not, in conformity with law, be opened at less than face value.

11) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.

12) In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.

13) **All bids must be in whole dollar amounts. Percentage increases will be rounded up to the nearest dollar.**

14) **Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.**

15) No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**

16) Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. Credit cards will not be accepted for auction purchases.

17) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.

18) If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE in procuring judgement shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.

19) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.

20) In the event of dispute, the auctioneer's decision is final.

21) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.

22) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

23) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

24) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

25) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

26) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

27) **All material in this catalogue is unconditionally guaranteed to be genuine.**

28) No lots may be returned by floor bidders except for non-authenticity.

29) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.

30) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

31) The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

32) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

How To Bid

You may bid on any lot in this sale by **Mail, Phone** or **FAX** using the Bid Sheet supplied or on a suitable letterhead. All Mailed, Phoned or FAXED Bids for this Mail Bid Only Sale. **Must Be In Our Hands No Later than 12:00 Noon Tuesday, July 1, 1997.** Please confirm in writing any phone or FAX bids made within 24 hours and identify them as: "Confirmation of Phone or FAX bids" at the top of the bid sheet. If bidding by Mail or FAX, we recommend calling to confirm we have received your bid sheet. Please include a phone number where we can reach you in case we need to verify any information with you. FAXED bid sheets should be typed or written in fine point black pen to avoid blurring in transmission. In the final week before the auction, due to postal delays, we recommend only FAXing, phoning or sending your bids via Federal Express. Please bid early to avoid disappointment.

Estimates

We have placed an estimate on almost every lot in this sale, expressed either as a range (for example $1000-$1,500) or with a lower price estimate (for example $500-Up). Where the price range is narrow, we have based it on prices the item may have brought in recent previous auctions or in private transactions. If the range is wide, the item may be new to us, the value of the item may be subject to many unknown factors, or the market may be changing constantly. In all cases, we have used our best professional opinion as to what we feel the lot may realize. **These estimates represent our conservative opinion as to what we feel a lot may realize, and we believe that most lots in this sale will bring within the estimate ranges or over the low estimates.** Market conditions beyond our knowledge may cause some lots to sell for under the low estimates, or more than the high estimates.

How To Get the Best Results When Bidding in a Mail Bid Sale

Bidding in mail bid auctions can sometimes be a real challenge, but mail bid auctions are real opportunities for collectors to acquire items that may be hard to obtain any other way. Experience has taught us ways to minimize frustrations, and maximize results, and we would like to share some of those ideas with you. Here are the questions we are asked most often and some of the suggestions we have made to bidders. We think they will save you time, money and help you win lots you might otherwise miss.

"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."

Lots are available at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics or scripophily than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't be there, here is how we can help you get a better idea of what you are bidding on:

1) **Call us, and we will be happy to have one of our experts describe any lot you ask about.**
2) **We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge.**
3) **If you have established credit with us we may be able to ship lots to you for direct viewing.**

Please realize that requests for phone assistance, for copies or for shipping lots directly to you **must be arranged well in advance of the closing date of the sale.**

"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."

There is an easy way to solve this problem. It is called **a "limit" bid sheet.** Let's look at an example. Mr. Smith collects Confederate notes and he sees that there are over thirty lots he would like to buy. His budget is $1,000, but the estimates on the thirty lots he likes add up to well over $5,000. If he bids on all thirty he might win them all and exceed his budget. To be safe, he bids on only ten, and he wins only one lot for a $100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. **He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet.** Here is how it works.

Mr. Jones has the same collecting interests as Mr. Smith. He has the same $1,000 budget. Mr. Jones bids on **all thirty lots** he is interested in. He writes at the bottom of his bid sheet **"Please limit my total bids to $1,000."** Every time Mr. Jones wins a lot we keep track of his total spending. When the total reaches $1,000 we will stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

There is a special advantage to limit bidding in a mail bid sale - the bids can be listed in order of your preference. List the lots you want most first.

"I see that there are two similar lots in the sale. I want only one of them, not both of them."

This problem can be solved with an **"OR"** bid. Let's assume that Lot #101 and Lot #102 are identical. You wish to bid $200 on either one, but you don't want both. Write the following on your bid sheet and you can accomplish your goal:

"#101 OR #102 at $200"

If you win Lot #101 we will cancel your bid on #102.

"What if there are three similar lots and I only want one?"

"#101 OR #102 OR #103 at $200" will work perfectly.

"When I don't win a lot I often seem to loose it by just a few dollars. It almost looks as if someone knows what I am bidding and they bid a little more. What is going on?"

Every auction house has its own way of closing a mail bid sale. Some houses will tell bidders exactly how much the highest bid is at any given moment right up until the end of the sale. We feel this is unfair, because anyone who is able to get through by phone near the end of the sale can top anyone else. If auctions are closed in this manner clients who are "friends of the house" have a distinct advantage and can top other bidders at the end. Those who bid early are at a disadvantage. To eliminate this problem **we don't give out information on what the highest bid is.** We advise bidders to bid exactly as much as they are willing to spend on a lot, and where possible, if they win a lot we reduce their bids to an increment just above the next highest bidder (there are exceptions - please see the Terms of Sale).

We think this method is fair to everyone involved, but it does result in bidders sometimes losing lots by $1, or $5 at times. If Mr. Jones bids $100 on an item and Mr. Smith bids $101, we have no choice but to award the lot to Mr. Smith for $101.

"I bid $30 on a lot that was estimated at $100 and I didn't get the lot. Later, when I got the Prices Realized the lot was reported as unsold. Why didn't I get the lot?"

The Terms of Sale state that bids less than 50% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "...regular market value..." of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.

We hope these questions and answers have been helpful, and if you have any comments, suggestions, or further questions concerning R. M. Smythe auctions, please feel free to call us at 800-622-1880, or 212-943-1880.

5679 **Wiiliam S. Pierson & Co.** (NY) 1846. Share certificate. **U.** Black on blue. ***($125-175)***

This was a classical scam, in an era marked by some ingenious examples of that art form. Abraham G. Thompson claimed to have a map, marking the location where Captain Kidd had sunk a vessel containing his loot. Since Kidd did his looting in the Indian Ocean, and such money as he got (he was a notoriously incompetent pirate) was spent there, this was pure fiction that could only fool the ignorant. To give verisimilitude to this bald and unconvincing narrative, the side in the Hudson River near Dunderbergh Mountain was salted with some treasure pieces which the projectors claimed to have fished up. The scheme gave total discretion to the projectors as to how the raised funds were to be spent, thus giving the shareholders no recourse to recover their subscriptions. The chief purpose of this scheme was to pocket the down payments of $25 per share.

5686 **Texas Association** (KY). **1 Share.** U. Hart, Mapother & Co. Louisville, KY. **Unc.** ***($350-Up)***
This certificate was based on an 1844 land grant by the Republic of Texas of 8,000 square miles to those who would undertake to settle the area of the grant. The grant was known in Texas as the Mercer Colony, from its owner Charles Fenton Mercer. He sold his interests to the Louisville investors, but got a new grant from President Houston which he offered one share lots (100 shares total) in exchange for an $8 surveying charge only if people settled by March 20, 1845.
Many questioned the validity of this new grant and by 1847, with few of the 100 shares sold, and with squatters bidding the certificate holders defiance, aided and abetted by Texas congressmen and land speculators, Mercer sold out for a $2,000 annuity. The company was reorganized in 1858 and new certificates, similar to that here were issued for those outstanding under earlier sales. A nice write up accompanies the lot.

A scarce note with the unusual Congreve back, used only in New England, and not much even there. This patent permitted the printing of two colors simultaneously. This, it was thought, would foil counterfeiting, but the counterfeits got hold of the machines and the process was expensive, so it was abandoned.

6319 **MA.** *Lynn.* Nahant Bank. **$2.** (MA-790, G-8). Congreve Patent back in green and slightly faded brown. **VG.** **(Photo)** ***($150-Up)***

6327 **Union Bank of Mississippi Papers.** [3] **(Photo)** ***($450-Up)***

1) August 20, 1838. Stockholders Oath form filled in by John M. Dye for the pledging of land to purchase shares in the Mississippi Union Bank. Part printed. **VF,** fold split, foxing spots. 2) Part printed form printed on one side of four, whereby John M. Dye subscribes for 143 shares of stock worth $14,300, payable in installments according to when the bonds issued to furnish the bank with capital became due. 10% was to be levied for a late payment. Dye lived in Amite County. 3) Part printed form 8 Oct 1847. John Skelton, trustee of the Mississippi Union Bank, buys in for $1 the whole of the lands held and pledged by Dye for 163 shares worth nominally $16,300. On the back there is a hand endorsement on the back with Skelton selling the forfeited lands for $2.50 back to Dye. **VF,** aged.

This proves, if proof were needed, that there was a conspiracy between the subscribers and the trustees to liquidate the bank for a song so that the state bond holders would get nothing and the State would repudiate its bonds with public approval.

Thomas F. Morris, the Engraver, Archive Material

The following lots are some very interesting material which originally came from the Morris family, in particular Thomas Morris II. Morris II was the president of the New York Numismatic Club and good friends with Bill Donlon who later owned this material.

Thomas Morris Sr. (1852-1898) apprenticed at the ABN at age 16 and worked under Major and W.C. Smillie. 10 years later he was head of his department. Later he went to Homer Lee Banknote and eventually to the BEP in 1893. Sadly, an undisclosed illness took his life prematurely in 1898.

Thomas F. Morris, II wrote an extensive monograph on his father's work titled ***The Life and Work of Thomas F. Morris 1852-1898*** *(Published by Morris II, edited by Barbara Mueller of the Essay Proof Society). Several items offered here are illustrated in that book. We recommend this work; however, it is out of print and tough to find.*

6510 Thomas F. Morris' Engraving Tools in his Initialed Metal Box. ***($150-Up)***

Four different engraving awls contained in a green lock box. On the cover, "T.F.M." in gold initials. Also included is a small metal box that fits within. With two keys. Worn, some rust on the box. The tools in nice condition. Very unusual group from this famous engraver.

6511 Thomas F. Morris' Drafting Set. ***($100-Up)***

Spuriscope for Counterfeit Detection

6540 **Spuriscope for Counterfeit Detection.** ***($200-Up)***
Unusual device by Ruth Devices Corp., New York City for the detection of small size (post 1929) counterfeit notes by using the serial numbers to determine if the correct block letters are present. The device looks like an old phone dial in a black circular case. You dial the serial numbers and in an adjacent window the proper block letters appear. If the block letters of the serial number dialed are different, then the bill is counterfeit. Contrary to their easy directions, it is not as easy to use as it sounds and no verbal description is a substitute for seeing it in action. Their catchy slogan: *Don't Gamble and Hope, Use the Spuriscope!* Choice, as issued condition, in the original box with instructions. An excellent companion to a small size currency collection and for the serial number/block letter specialists. Should be seen.

An interesting rendition of Washington which actually looks more like the shape shifter "Odo" from *Star Trek: Deep Space Nine.*

6545 **Macerated Currency "Puss in Boot".** Cute little kitten with ribbon in small shoe. 11 cm long, 4 cm wide. 56.8 grams. One of the kittens' ears chipped off, otherwise nice. ***($150-Up)***

Some counties, particularly in Mississippi and Virginia paid the families of those in service with the Confederate army an additional sum in order to assure that they could pay their rent and procure food and clothing. Previously Unknown Certificate

6635 **States of Virginia and West Virginia. $18.** 1874. NBN. VA arms at top. **VF,** pin holes. **(Photo)** ***($300-Up)***
This heretofore unknown certificate has a complicated history. During the Civil War, the Federal Government connived at the creation of a new state out of an old one, a violation of the constitution. West Virginia was admitted to the Union in 1863 and after the War refused to pay its one third share of the principal and interest of the Virginia debt as of January 1, 1861.
Unable to get the authorities in Charleston to pay their fair share, Virginia paid cash on two thirds of the old debt and ordered the Second Auditor to issue certificates to its creditors for the other third. Finally, in 1907-1909, Virginia sued West Virginia before the U.S. Supreme Court, asking for a ruling that the new state pay its share of this debt. The Supreme Court ruled in Virginia's favor, and a federal judge had to threaten to jail the entire West Virginia legislature for contempt if it did not discharge these obligations. The certificates were then turned into Charleston for payment, the last payment being made in 1939. Only a tiny part of the unpaid debt was not presented and the present certificates are no longer payable because the statute of limitations has expired. Orange and green forms in the later 1870's have appeared from time to time in the past, being priced by Criswell at $1200 and up. This variety has only now appeared and only three specimens are known.

HISTORY

At the 1960 A.N.A. Convention in Boston, a small group of paper money collectors met informally and agreed that a regular organization would be desirable. During the next year, an organization was formed comprising collectors of tokens, medals and obsolete paper money. At the 1961 Atlanta A.N.A. Condition Terminology For Currency

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
Choice Unc. (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
EF (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
VG (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.
Good - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
Abt (before a grade) - A shade below the grade it precedes.
Plus or + (following a grade) - A shade better than the grade.
VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.
VF/Good (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

Terminology for Stocks & Bonds

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair - A certificate with extreme handling, fold splitting, stains, small pieces or tears.
Fine - Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.
Very Fine (VF) - The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.
Very Fine+ (VF+) - Obviously used or worn, but brighter or cleaner than the average example.
Extremely Fine (EF) - A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.
